

LA Fire Damage Recovery Support

Quartic is here to help.

We're ready to support LA's recovery by providing essential GIS mapping and data services to help assess damages, guide critical decisions, and ensure a faster, more informed recovery process.

How We Can Support LA's Recovery

Proven Crisis Response Expertise

We have supported emergency efforts during past crises, including fires, flooding, and COVID-19. As an Esri Gold Partner, we're committed to delivering reliable GIS solutions.

Solutions for Challenging Times

Whether it's mapping affected areas, providing real-time data insights, we can ensure your recovery efforts are efficient and informed at every stage.

State & Local Government Experts

We have experience with infrastructure system recovery, economic recovery, natural & cultural resources, public safety, health and social service, and community assistance support

Get started *without* an RFP!

There's three easy options to getting up and running, fast.

Start Quickly with Quartic—No RFP Needed

Call-A-Friend Service

Access Quartic's expert GIS support on a flexible, credit basis—no RFP required. Our Call-A-Friend Service allows you to quickly get the help you need while keeping costs below your RFP minimum. Purchase more blocks of credits on an as-needed basis.

Piggyback on Existing Contracts

Take advantage of Quartic's established contracts with the other California agencies to mobilize our team rapidly. This means you can quickly access our GIS expertise without initiating a new procurement process, saving time and reducing delays.

Approved LA County Vendor

Quartic is an approved vendor for the County of Los Angeles. It simplifies the engagement process for agencies. By working with us through this status, you gain access to a trusted partner, ensuring you can use efficient and streamlined support for your recovery efforts.
